The Fund

INVESTMENT APPROACH

The fund seeks current income and capital appreciation. To pursue this goal, the fund normally invests in a balanced portfolio of common stocks, U.S. and foreign government securities, and a variety of corporate fixed-income obligations.

- For the equity portion of its portfolio, the fund emphasizes investments in common stocks with the potential for capital appreciation. These stocks generally pay regular dividends, although the fund may also invest in non-dividend-paying companies if they offer better prospects for capital appreciation. Normally, the fund will invest a significant percentage (up to 75%) of its total assets in equity securities.
- The fund will maintain a minimum of 25% of its total assets in fixed-income, investment-grade securities rated Baa or higher by Moody's Investors Service, Inc. or BBB or higher by Standard & Poor's. Fixed income securities in which the fund might invest include bonds, debentures, and other corporate or government obligations. Current income and the potential for capital appreciation are considered in the selection of these securities. There is no maximum limit on the amount of straight debt securities in which the fund may invest, and the fund may invest up to 100% of its assets in such securities for temporary defensive purposes.
- The fund also may invest up to 30% of its total assets in foreign securities, with no more than 25% of its total assets invested in the securities of any one foreign country.

Founders Asset Management LLC ("Founders") manages the equity portion of the fund using a "growth style" of investing. Founders uses a consistent, "bottom-up" approach to build equity portfolios, searching one by one for companies whose fundamental strengths suggest the potential to provide superior earnings growth over time.

Key concepts

The fund offers multiple classes of shares. This prospectus describes shares of Classes A, B, C, R and T. The fund's other class of shares, Class F, is offered by a separate prospectus and is generally available only to shareholders who have continuously maintained a Class F account with any Dreyfus Founders fund since December 30, 1999. All share classes of the fund invest in the same underlying portfolio of securities and have the same management team. However, because of different charges, fees and expenses, the performance of the fund's share classes will vary.

MAIN RISKS

The primary risks of investing in this fund are:

- **Stock market risk.** The value of the stocks and other securities owned by the fund will fluctuate depending on the performance of the companies that issued them, general market and economic conditions, and investor confidence. In addition, whether or not Founders' assessment of a company's potential to increase earnings faster than the rest of the market is correct, the securities in the portfolio may not increase in value, and could decrease in value.
- **Interest rate risk.** When interest rates change, the value of the fixed-income portion of the fund will be affected. An increase in interest rates tends to reduce the market value of debt securities, while a decline in interest rates tends to increase their values.
- **Credit risk.** The value of the debt securities held by the fund fluctuates with the credit quality of the issuers of those securities. Credit risk relates to the ability of the issuer to make payments of principal and interest when due, including default risk.
- **Sector risk.** The fund may overweight or underweight certain market sectors, which may cause the fund's performance to be more or less sensitive to developments affecting those sectors.
- **Asset allocation risk.** The fund's asset allocation between equities and fixed income securities will vary depending on the portfolio manager's evaluation of general market and economic conditions. If this assessment is incorrect, the fund's returns may vary considerably from other balanced funds with different equity/fixed income asset allocations.

Key concepts

Growth companies: companies whose earnings are expected to grow faster than the overall market.

"Bottom-up" approach: choosing fund investments by analyzing the fundamentals of individual companies one at a time rather than focusing on broader market themes.

Dividend: a payment of stock or cash from a company's profits to its stockholders.

Debt security: represents money borrowed that must be repaid to the lender at a future date. Bonds, notes, bills, and money market instruments are all examples of debt securities.

Bond: an IOU issued by a government or corporation that pays a stated rate of interest and returns the face value on the maturity date.

PAST PERFORMANCE

The following information illustrates the risks of investing in the fund. The bar chart shows the fund's Class A performance from year to year. The performance figures do not reflect sales loads, and would be lower if they did. All performance figures reflect the reinvestment of dividends and capital gain distributions. Past performance is no guarantee of future results.

The following table compares the performance of each share class to the performance of appropriate broad-based indexes. These returns include applicable sales loads and reflect the reinvestment of dividends and capital gain distributions. Past performance, both before and after taxes, is no guarantee of future results.

What this fund is – and isn't

This fund is a mutual fund: a pooled investment that is professionally managed and gives you the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in this fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. You could lose money in this fund, but you also have the potential to make money.

* Inception date 12/31/99.

The Standard & Poor's (S&P) 500 Index is a market-value weighted, unmanaged index of common stocks considered representative of the broad market. The Lipper Balanced Fund Index is an average of the performance of the 30 largest balanced funds tracked by Lipper Inc. and reflects the expenses of managing the mutual funds included in the index. The Russell 1000 Growth Index is an unmanaged index that measures the performance of the common stocks of those companies among the largest 1,000 publicly traded U.S. companies with higher price-to-book ratios and higher forecasted growth values. In future prospectuses, the fund's performance will no longer be compared to the Russell 1000 Growth Index, as the fund's composition corresponds more closely to the other indexes.

After-tax performance is shown only for Class A shares. After-tax performance of the fund's other share classes will vary. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's individual tax situation and may differ from those shown. The after-tax return information shown above does not apply to fund shares held through tax-deferred accounts, such as 401(k) plans or individual retirement accounts.

EXPENSES

As a fund shareholder, you pay certain fees and expenses in connection with the fund, which are described in the tables below.

Fee table	Class A	Class B	Class C	Class R	Class T
Shareholder transaction fees (<i>fees paid from your account</i>)					
Maximum front-end sales charge on purchases as a % of offering price	5.75	none	none	none	4.50

Total annual fund operating expenses ^{3,4}	1.22	1.97	1.98	1.09	1.37

¹ Shares bought without an initial sales charge as part of an investment of \$1 million or more may be charged a CDSC of 1.00% if redeemed within one year.

² These expenses include custodian, transfer agency and accounting agent fees, and other customary fund expenses.

³ Restated to reflect current state registration fees.

⁴ Previously, the fund also presented total annual fund operating expenses net of credits earned on cash held at the custodian. Due to a planned change in the fund's custodian, that information no longer will be presented here, but it is available under "Financial Highlights."

Expense example	1 Year	3 Years	5 Years	10 Years
Class A	\$692	\$940	\$1,207	\$1,967
Class B				
with redemption	\$600	\$918	\$1,262	\$1,924*
without redemption	\$200	\$618	\$1,062	\$1,924*
Class C

without redemption	\$201	\$621	\$1,068	\$2,306
Class R	\$111	\$347	\$601	\$1,329
Class T	\$583	\$864	\$1,166	\$2,022
* Assumes conversion of Class B to Class A at end of the sixth year following the date of purchase.				
This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. Because actual return and expenses will vary, the example is for comparison only.				

Key concepts

Management fee: a fee paid to Founders for managing the fund's portfolio.

Rule 12b-1 fee: the fee paid to the fund's distributor to finance the sale and distribution of Class B, Class C, and Class T shares. Because this fee is paid out of the fund's assets on an ongoing basis, over time it will increase the cost of your investment and may cost you more than paying other types of sales charges.

Shareholder services fee: the fee paid to the fund's distributor for providing shareholder services.

Contingent deferred sales charge (CDSC): a back-end sales charge payable if shares are redeemed within a certain time period.

MORE ABOUT INVESTMENT OBJECTIVE, STRATEGIES AND RISKS

This section discusses other investment strategies used by the fund and provides in more detail the risks associated with those strategies. The Statement of Additional Information contains more detailed information about the fund's investment policies and risks.

Other portfolio investments and strategies

ADRs. The fund may invest in American Depositary Receipts and American Depositary Shares (collectively, "ADRs") as a way to invest in foreign securities. ADRs are receipts representing shares of a foreign corporation held by a U.S. bank that entitle the holder to all dividends and capital gains on the underlying foreign shares. ADRs are typically denominated in U.S. dollars and trade in the U.S. securities markets. ADRs are subject to many of the same risks as direct investments in foreign securities. These risks include fluctuations in currency exchange rates, potentially unstable political and economic structures, reduced availability of public information, and lack of uniform financial reporting and regulatory practices similar to those that apply to U.S. issuers.

Derivative instruments. Unlike stocks or bonds that represent actual ownership of the equity or debt of an issuer, derivatives are instruments that derive their value from an underlying security, index, or other financial instrument. The fund may use derivative instruments to engage in hedging strategies, to increase the fund's exposure to certain investments without directly buying those investments, or to manage cash. Derivatives the fund may use include futures contracts and forward contracts, and purchasing and/or writing (selling) put and call options on securities, securities indexes, futures contracts, and foreign currencies. The fund has limits on the use of derivatives and is not required to use them in seeking its investment objectives.

Certain strategies may hedge all or a portion of the fund's portfolio against price fluctuations. Other strategies, such as buying futures and call options, would tend to protect the fund against increases in the prices of securities or other instruments the fund intends to buy. Forward contracts, futures contracts and options may be used to try to manage foreign currency risks on the fund's foreign investments. Options trading may involve the payment of premiums and has special tax effects on the fund.

There are special risks in using particular derivative strategies. Using derivatives can cause the fund to lose money on its investments and/or increase the volatility of its share prices. In addition, the successful use of derivatives draws upon skills and experience that are different from those needed to select the other securities in which the fund invests. Should interest rates, foreign currency exchange rates, or the prices of securities or financial indexes move in an unexpected manner, the fund may not achieve the desired benefit of these instruments, or may realize losses and be in a worse position than if the instruments had not been used. The fund could also experience losses if the prices of its derivative positions were not correlated with its other investments or if it could not close out a position because of an illiquid market.

Securities of other investment companies. The fund may acquire securities of other investment companies, including exchange-traded funds, subject to the limitations of the Investment Company Act of 1940 (IC Act). The fund's purchase of securities of other investment companies may result in the payment of additional management and distribution fees.

The fund may invest in shares of money market funds managed by Founders or its affiliates in excess of the limitations of the IC Act under the terms of an SEC exemptive order.

Temporary defensive investments. In times of unstable or adverse market or economic conditions, up to 100% of the fund's assets can be invested in temporary defensive instruments in an effort to enhance liquidity or preserve capital. Temporary defensive investments generally include cash, cash equivalents such as commercial paper, money market instruments, short-term debt securities, U.S. government securities, or repurchase agreements. The fund also could hold these types of securities pending the investment of proceeds from the sale of fund shares or portfolio securities, or to meet anticipated redemptions of fund shares. To the extent the fund invests defensively in these securities, it might not achieve its investment objective.

Portfolio turnover. The fund does not have any limitations regarding portfolio turnover. The fund may engage in short-term trading to try to achieve its objective and may have portfolio turnover rates significantly in excess of 100%. A portfolio turnover rate of 100% is equivalent to the fund buying and selling all of the securities in its portfolio once during the course of a year. The portfolio turnover rate of the fund may be higher than other mutual funds with the same investment objective. Higher portfolio turnover rates increase the brokerage costs the fund pays and may adversely affect its performance.

If the fund realizes capital gains when it sells portfolio investments, it generally must pay those gains out to shareholders, increasing their taxable distributions. This may adversely affect the after-tax performance of the fund for shareholders with taxable accounts. The fund's portfolio turnover rates for prior years are included in the "Financial Highlights" section of this prospectus. The fund's current and future portfolio turnover rates may differ significantly from its historical portfolio turnover rates.

More about risk

Like all investments in securities, you risk losing money by investing in the fund. The fund's investments are subject to changes in their value from a number of factors.

- **Company risk.** The stocks in the fund's portfolio may not perform as expected. Factors that can negatively affect a particular stock's price include poor earnings reports by the issuer, loss of major customers or management team members, major litigation against the issuer, or changes in government regulations affecting the issuer or its industry.
- **Opportunity risk.** There is the risk of missing out on an investment opportunity because the assets necessary to take advantage of the opportunity are held in other investments.
- **Investment style risk.** Market performance tends to be cyclical, and during various cycles, certain investment styles may fall in and out of favor. The market may not favor the fund's growth style of investing, and the fund's returns may vary considerably from other equity funds using different investment styles.

MANAGEMENT

Founders serves as investment adviser to the fund and is responsible for selecting the fund's investments and handling its day-to-day business. Founders' corporate offices are located at 2930 East Third Avenue, Denver, Colorado 80206.

Founders and its predecessor companies have operated as investment advisers since 1938. Founders also serves as investment adviser to other series funds of Dreyfus Founders Funds, Inc. (the "company"), as well as serving as adviser or sub-adviser to a number of other investment companies and private accounts. Founders is the growth specialist affiliate of The Dreyfus Corporation, a leading mutual fund complex with more than \$181 billion in over 190 mutual fund portfolios as of December 31, 2001. Founders and Dreyfus are investment subsidiaries of Mellon Financial Corporation, a broad-based global financial services company with approximately \$592 billion in assets under management as of December 31, 2001.

In addition to managing the fund's investments, Founders also provides certain related administrative services to the fund. For these investment and administrative services, the fund pays Founders a management fee. The fund's management fee for the fiscal year ended December 31, 2001 was 0.63% of the fund's average daily net assets.

To facilitate day-to-day fund management, Founders uses a team system. Each team is composed of members of the investment department, including portfolio managers, research analysts, and portfolio traders. Each individual shares ideas, information, knowledge, and expertise to assist in the management of the fund. Daily decisions on security selection for the fund are made by the portfolio manager. Through participation in the team process, the manager uses the input, research, and recommendations of the rest of the management team in making purchase and sale decisions.

John B. Jares, vice president of investments and chartered financial analyst, joined Founders in November 2001 and has been the fund's portfolio manager since that time. Before joining Founders, Mr. Jares was a vice president and senior portfolio manager at Delaware Investments from 2000 to November 2001, a vice president and portfolio manager at Berger LLC from 1997 to 2000, and a large-cap equity analyst and subsequently a co-portfolio manager at Founders from 1994 to 1997.

Founders has a personal securities trading policy (the "Policy") which restricts the personal securities transactions of its employees. Its primary purpose is to ensure that personal trading by Founders employees does not disadvantage any Founders-managed fund. Founders portfolio managers and other investment personnel who comply with the Policy's preclearance and disclosure procedures may be permitted to purchase, sell or hold certain types of securities which also may be held in the fund(s) they advise.

FINANCIAL HIGHLIGHTS

The following tables describe the performance of each share class for the two years ended December 31, 2001. Certain information reflects financial results for a single fund share. "Total return" shows how much your investment in the fund would have increased (or decreased) during each period,

assuming you had reinvested all dividends and capital gain distributions. The financial information has been audited by PricewaterhouseCoopers LLP whose report and the fund's financial statements are included in the fund's 2001 annual report, which is available upon request.

Your Investment

ACCOUNT POLICIES

You will need to choose a share class before making an initial investment. In making your choice, you should weigh the impact of all potential costs over the length of your investment, including sales charges and annual fees. For example, in some instances, it can be more economical to pay an initial sales charge than to choose a class with no initial sales charge but with higher annual fees and a contingent deferred sales charge (CDSC).

Reduced Class A and Class T sales charge

Right of accumulation: lets you add the value of any shares you own in this fund, and any other Dreyfus Founders fund or any Dreyfus Premier fund sold with a sales load, to the amount of your next Class A or Class T investment for purposes of calculating the sales charge.

Consult the Statement of Additional Information (SAI) or your financial representative for more details.

In selecting a class, consider the following:

- **Class A shares** may be appropriate for investors who prefer to pay the fund's sales charge up front rather than upon the sale of their shares, want to take advantage of the reduced sales charges available on larger investments, and/or have a longer-term investment horizon. Class A shares have no Rule 12b-1 fee.
- **Class B shares** may be appropriate for investors who wish to avoid a front-end sales charge, put 100% of their investment dollars to work immediately, and/or have a longer-term investment horizon. Class B shares convert automatically to Class A shares after the Class B shares are held for six years.
- **Class C shares** may be appropriate for investors who wish to avoid a front-end sales charge, put 100% of their investment dollars to work immediately, and/or have a shorter-term investment horizon.
- **Class R shares** are designed for eligible institutions on behalf of their clients. Individuals may not purchase these shares directly.
- **Class T shares** may be appropriate for investors who prefer to pay the fund's sales charge up front rather than upon the sale of their shares, want to take advantage of the reduced sales charges available on larger investments, and have a shorter-term investment horizon. (Because Class A has lower expenses than Class T, if you invest \$1 million or more in the fund, you should consider buying Class A shares.)

Your financial representative can help you choose the share class that is appropriate for you.

Third-party investments

The classes of the fund offered by this prospectus are designed primarily for investors who are investing through a third party, such as a bank, broker-dealer or financial adviser, or in a 401(k) or other retirement plan. When you open a fund account with these third parties, they may impose policies, limitations, and fees, which are different from, or in addition to, those described in this prospectus.

Share class charges

Each share class has its own fee structure. In some cases, you may not have to pay or may qualify for a reduced sales charge to buy or sell shares. Consult your financial representative or refer to the SAI to see whether this may apply to you.

Sales charges

Class A and Class T – charged when you buy shares

Your investment	Sales charge deducted as a % of offering price		Sales charge as a % of your net investment	
	Class A	Class T	Class A	Class T
Up to \$49,999	5.75%	4.50%	6.10%	4.70%
\$50,000 – \$99,999	4.50%	4.00%	4.70%	4.20%
\$100,000 – \$249,999	3.50%	3.00%	3.60%	3.10%
\$250,000 – \$499,999	2.50%	2.00%	2.60%	2.00%
\$500,000 – \$999,999	2.00%	1.50%	2.00%	1.50%
\$1 million or more*	0.00%	0.00%	0.00%	0.00%

* A 1.00% CDSC may be charged on any shares sold within one year of purchase (except shares bought through dividend reinvestment).

Class A shares also carry an annual shareholder services fee of 0.25% of the class's average daily net assets.

Class T shares also carry an annual Rule 12b-1 fee of 0.25% and a shareholder services fee of 0.25% of the class's average daily net assets.

Class B – charged when you sell shares

Time since your initial purchase	CDSC as a % of your initial investment or your redemption (whichever is less)
First and second year	4.00%
Third and fourth year	3.00%
Fifth year	2.00%
Sixth year	1.00%
More than 6 years	Shares will automatically convert to Class A, which has no CDSC

Class B shares also carry an annual Rule 12b-1 fee of 0.75% and a shareholder services fee of 0.25% of the class's average daily net assets.

Class C – charged when you sell shares

A 1.00% CDSC is imposed on redemptions made within the first year of purchase. Class C shares also carry an annual Rule 12b-1 fee of 0.75% and a shareholder services fee of 0.25% of the class's average daily net assets.

Class R – no sales charge, Rule 12b-1 fee or shareholder services fee

Buying shares

The net asset value (NAV) of each class is generally calculated as of the close of regular trading on the New York Stock Exchange ("NYSE") (usually 4 p.m. Eastern time) every day the NYSE is open. Your order will be priced at the next NAV calculated after your order is accepted by the fund's transfer agent or other authorized entity. NAV is not calculated, and you may not conduct fund transactions, on days the NYSE is closed (generally weekends and New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day). However, the fund may conduct portfolio transactions on those days, particularly in foreign markets. Those transactions, and changes in the value of the fund's foreign securities holdings on such days, may affect the value of fund shares on days when you are not able to purchase, exchange, or redeem shares.

The fund uses pricing services to determine the market value of the securities in its portfolio. If market quotations are not readily available, the fund's securities or other assets are valued at fair value as determined in good faith by the fund's board of directors, or pursuant to procedures approved by the board. These situations may include instances where an event occurs after the close of the market on which a security is traded, and it is determined that the event has materially affected the value of the security. In such instances, the valuation assigned to the security for purposes of calculating the fund's NAV may differ from the security's most recent closing market price, and from the prices used by other mutual funds to calculate their NAVs. The NAV of your shares when you redeem them may be more or less than the price you originally paid, depending primarily upon the fund's investment performance.

Orders to buy and sell shares received by dealers by the close of trading on the NYSE and transmitted to the distributor or its designee by the close of its business day (normally 5:15 p.m. Eastern time) will be based on the NAV determined as of the close of trading on the NYSE that day.

Minimum investments		
Account type	Initial	Additional
Regular accounts	\$1,000	\$100; \$500 for TeleTransfer investments
Traditional IRAs	\$750	no minimum
Spousal IRAs	\$750	no minimum
Roth IRAs	\$750	no minimum
Education Savings Accounts	\$500	no minimum after the first year
Automatic investment plans	\$100	\$100

All investments must be in U.S. dollars. Third-party checks cannot be accepted. You may be charged a fee for any check that does not clear. Maximum TeleTransfer purchase is \$150,000 per day.

Key concepts

Net asset value (NAV): the market value of one fund share, computed by dividing the total net assets of a fund Class by its shares outstanding. The fund's Class A and Class T shares are offered at NAV plus a sales charge. Classes B, C, and R are offered at NAV, but Classes B and C are subject to higher annual operating expenses and a CDSC.

Selling shares

You may sell (redeem) shares at any time. Your shares will be sold at the next NAV calculated after your order is accepted by the company’s transfer agent or other authorized entity. Your order will be processed promptly, and you will generally receive the proceeds within a week.

To keep your CDSC as low as possible, each time you request to sell shares, we will first sell shares that are not subject to a CDSC, and then sell those subject to the lowest charge. The CDSC is based on the lesser of the original purchase cost or the current market value of the shares being sold, and is not charged on shares you acquired by reinvesting your dividends. There are certain instances when you may qualify to have the CDSC waived. Consult your financial representative or the SAI for details.

Before selling shares recently purchased by check, TeleTransfer or Automatic Asset Builder, please note that:

- if you send a written request to sell such shares, the fund may delay sending the proceeds for up to eight business days following the purchase of those shares
- the fund will not process wire, telephone or TeleTransfer redemption requests for up to eight business days following the purchase of those shares

Limitations on selling shares by phone		
Proceeds sent by	Minimum	Maximum
Check	no minimum	\$250,000 per day
Wire	\$1,000	\$500,000 for joint accounts every 30 days
TeleTransfer	\$500	\$500,000 for joint accounts every 30 days

Written sell orders

Some circumstances require written sell orders along with signature guarantees. These include:

- amounts of \$10,000 or more on accounts whose address has been changed within the last 30 days
- requests to send the proceeds to a different payee or address
- written sell orders of \$100,000 or more

A signature guarantee helps protect against fraud. You can obtain one from most banks or securities dealers, but not from a notary public. For joint accounts, each signature must be guaranteed. Please call us to ensure that your signature guarantee will be processed correctly.

General policies

Unless you decline telephone privileges on your application, you may be responsible for any fraudulent telephone orders as long as reasonable measures were taken to verify the order.

The fund reserves the right to:

- refuse any purchase or exchange request that could adversely affect the fund or its operations, including those from any individual or group who, in the fund's view, is likely to engage in excessive trading (usually defined as more than four exchanges out of the fund within a calendar year).
- refuse any purchase or exchange request in excess of 1% of the fund's total assets.
- change or discontinue its exchange privilege, or temporarily suspend this privilege during unusual market conditions.
- change its minimum investment amounts.
- delay sending out redemption proceeds for up to seven days (generally applies only in cases of very large redemptions, excessive trading or during unusual market conditions).

The fund also reserves the right to make a “redemption in kind” — payment in portfolio securities rather than cash — if the amount you are redeeming is large enough to affect fund operations (for example, if it represents more than 1% of the fund's assets).

Market timers

Market timing or other abusive trading practices are not permitted in the fund.

Excessive, short-term market timing or other abusive trading practices may disrupt portfolio management strategies and harm fund performance. To minimize harm to the fund and its shareholders, Founders and the fund's distributor reserve the right to reject any purchase order (including exchanges) from any investor believed to have a history of abusive trading or whose trading, in Founders' or the distributor's judgment, has been or may be disruptive to the fund. In making this judgment, Founders and the distributor may consider trading done in multiple accounts under common ownership or control. The fund also reserves the right to delay delivery of your redemption proceeds up to seven days, or to honor certain redemptions with securities, rather than cash, as discussed above.

Small account policies

To offset the relatively higher costs of servicing smaller accounts, the fund charges regular accounts with balances below \$2,000 an annual fee of \$12. The fee will be imposed during the fourth quarter of each calendar year.

The fee will be waived for: any investor whose aggregate Dreyfus Founders Fund Class A, B, C, R and T share investments and Dreyfus mutual fund investments total at least \$25,000; IRA accounts; accounts participating in automatic investment programs; and accounts opened through a financial institution.

If your account falls below \$500, the fund may ask you to increase your balance. If it is still below \$500 after 60 days, the fund may close your account and send you the proceeds to the address on record.

DISTRIBUTIONS AND TAXES

The fund intends to distribute tax-based net realized investment income on a quarterly basis every March, June, September and December. The fund intends to distribute any tax-based net realized capital gains on an annual basis each December. From time to time, the fund may make distributions in addition to those described above.

Each share class will generate a different distribution because each has different expenses. Your distributions will be reinvested in the fund unless you instruct the fund otherwise. There are no fees or sales charges on reinvestments.

Fund dividends and distributions are taxable to most investors (unless your investment is an IRA or other tax-advantaged account). High portfolio turnover and more volatile markets can result in taxable distributions to shareholders, regardless of whether their shares increased in value. The tax status of any distribution is the same regardless of how long you have been in the fund and whether you reinvest your distributions or take them in cash. In general, distributions are taxable at the federal level as follows:

Taxability of distributions		
Type of distribution	Tax rate for 15% bracket	Tax rate for 27% bracket
Income dividends	Ordinary income rate	Ordinary income rate
Short-term capital gains	Ordinary income rate	Ordinary income rate
Long-term capital gains	8%/10%	18%/20%

Because everyone's tax situation is unique, always consult your tax professional about federal, state and local tax consequences.

Taxes on transactions

Except for tax-advantaged accounts, any sale or exchange of fund shares may generate a tax liability. Withdrawals or distributions from tax-deferred accounts are taxable when received.

The table at left also can provide a guide for potential tax liability when selling or exchanging fund shares. "Short-term capital gains" applies to fund shares sold or exchanged up to 12 months after buying them. "Long-term capital gains" applies to shares sold or exchanged after 12 months; the lower rate applies to shares held more than five years and, for the 27% or above tax bracket, purchased after December 31, 2000.

SERVICES FOR FUND INVESTORS

Automatic services

Buying or selling shares automatically is easy with the services described below. With each service, you may select a schedule and amount, subject to certain restrictions. You can set up most of these services with your application, or by calling your financial representative or 1-800-554-4611.

For investing

Automatic Asset Builder®	For making automatic investments from a designated bank account.
Payroll Savings Plan	For making automatic investments through payroll deduction.
Government Direct Deposit Privilege	For making automatic investments from your federal employment, Social Security or other regular federal government check.
Dividend Sweep	For automatically reinvesting the dividends and distributions from one fund into another (not available for IRAs).

For exchanging shares

Auto-Exchange Privilege	For making regular exchanges from one fund into another.
--------------------------------	--

For selling shares

Automatic Withdrawal Plan	<p>For making regular withdrawals from most funds.</p> <p>A CDSC will not be charged on Class B shares redeemed under an Automatic Withdrawal Plan ("AWP") for any fund account opened on or after July 24, 2000, or for any existing fund account that adds AWP services on or after July 24, 2000, as long as the amount of the withdrawal does not exceed the greater of:</p> <ul style="list-style-type: none">• an annual rate of 12% of the account value at the time of the first withdrawal under the AWP; or• an annual rate of 12% of the account value at the time of any subsequent withdrawal.
----------------------------------	--

Exchange privilege

You can exchange shares worth \$500 or more (no minimum for retirement accounts) from one class of the fund into the same class of another Dreyfus Founders fund or Dreyfus Premier fund. You can also exchange Class T shares into Class A shares of certain Dreyfus Premier fixed-income funds. You can request your exchange in writing or by phone, or by contacting your financial representative. Be sure to read the current prospectus for any fund into which you are exchanging before investing. Any new account established through an exchange generally has the same privileges as your original account (as long as they are available). There is currently no fee for exchanges, although you may have to pay an additional sales charge when exchanging into any fund that has a higher sales charge.

Money market exchange privilege

As a convenience, the fund's shareholders may exchange all or part of their investment in the fund for shares of Dreyfus Worldwide Dollar Money Market Fund, Inc., without paying a CDSC. The Dreyfus Worldwide Dollar Money Market Fund is a money market fund advised by The Dreyfus Corporation that invests in a diversified portfolio of high-quality money market instruments. **The shares of Dreyfus Worldwide Dollar Money Market Fund are not offered by this prospectus.** Please contact your financial representative or call 1-800-554-4611 to request a copy of the current Dreyfus Worldwide Dollar Money Market Fund prospectus. Please be sure to read that prospectus carefully before investing in that fund.

TeleTransfer privilege

To move money between your bank account and your mutual fund account with a phone call, use the TeleTransfer privilege. You can set up TeleTransfer on your account by providing bank account information and by following the instructions on your application, or by contacting your financial representative.

Reinvestment privilege

Upon written request, you can reinvest up to the number of Class A, B or T shares you redeemed within 45 days of selling them at the current share price without any sales charge. If you paid a CDSC, it will be credited back to your account. This privilege may be used only once.

Account statements

Every fund shareholder automatically receives regular account statements. You will also be sent an annual statement detailing the tax characteristics of any dividends and distributions you have received.

Brokerage allocation

Subject to the policy of seeking the best execution of orders at the most favorable prices, sales of fund shares may be considered as a factor in the selection of brokerage firms to execute fund portfolio transactions. The SAI further explains the selection of brokerage firms.

☐ \$500,000 to less than \$1,000,000
☐ \$1,000,000 and over

THIS APPLICATION IS NOT PART OF THE PROSPECTUS.

CONTINUED ON REVERSE

Subject to the conditions specified herein and in the Terms of Escrow below, each purchase subsequent to submission of this Letter of Intent will be made at the public offering price applicable to a single transaction of the dollar amount checked above, as described in the then-current Prospectus of the fund in which the purchase is being made.

Upon completion of the total minimum investment specified under this Letter of Intent within the afore-described 13-month period, an adjustment will be made to reflect any reduced sales load applicable to shares purchased during the 90-day period prior to submission of this Letter of Intent. Additionally, if the total purchases within the 13-month period exceed the amount specified above, an adjustment will be made to reflect further reduced sales loads applicable to such purchases. All such adjustments will be made at the conclusion of the 13-month period and in the form of additional shares credited to my account at the then-current offering price applicable to a single purchase of the dollar amount of the total purchases. The Dealer/Service Agent will be liable for the amount of any such adjustment.

I understand that the value of my holdings in the Eligible Funds as defined in Right of Accumulation below (at the offering price prevailing on the date of submission of this Letter of Intent for purposes of a reduced sales load) may be included as a credit toward completion of my Letter of Intent. (See Right of Accumulation below.)

TERMS OF ESCROW

- 1. Out of my initial purchase (or subsequent purchases if necessary), 5% of the minimum dollar amount specified in the Letter of Intent shall be held in escrow by the Transfer Agent, in shares. All dividends and any capital gain distributions on the escrowed shares will be credited to me. Escrowed shares will not be extended the Exchange Privilege.
- 2. If I complete the total minimum investment specified under this Letter of Intent within the 13-month period, the escrowed shares will be promptly released to me.
- 3. If my total purchases pursuant to this Letter of Intent are less than the amount specified by me as my intended aggregate purchases, I will remit to the Transfer Agent an amount equal to the difference between the dollar amount of sales loads actually paid by me and the amount of sales loads which I would have paid if my total purchases had been made at a single time. If I do not pay such difference in sales loads within twenty (20) days after being notified, the Transfer Agent will redeem the number of escrowed shares necessary to obtain the difference in sales loads. Full and fractional shares remaining after this redemption will be released to me.
- 4. I hereby irrevocably constitute and appoint the Transfer Agent my attorney-in-fact to surrender for redemption any or all escrowed shares.

This Letter of Intent must be received by the Transfer Agent to be considered effective. All future purchases placed directly with Dreyfus Service Corporation must refer to this Letter of Intent.

B. RIGHT OF ACCUMULATION (For Class A and Class T shares)

Please Note: Purchases of any shares in this fund or any other Dreyfus Founders or Dreyfus Premier fund sold with a sales load (which you already own) qualify towards "Right of Accumulation" for purchases of Class A and Class T shares.

Shares may be purchased at the offering price applicable to the total of (a) the dollar amount then being purchased plus (b) an amount equal to the value of the combined present holdings of the purchaser, his or her spouse, and their minor children of shares of funds in the Dreyfus Founders and Dreyfus Family of Funds and qualified holdings of certain other funds, as described in the Prospectus ("Eligible Funds"). In order for this cumulative quantity discount to be made available, the investor must identify all fund accounts to be considered as qualified holdings. All accounts are subject to verification.

☐ The following accounts qualify for the Right of Accumulation or Letter of Intent as described above and in the Prospectus. Account number(s):

If privileges have been selected, all registered owners must sign below, including Corporations, Partnerships and Trusts.

The undersigned warrant(s) that I (we) have full authority and, if a natural person, am (are) of legal age to purchase shares pursuant to this Application, have received a current fund Prospectus and agree to be bound by its terms, and that all representations accompanying this Application pursuant to the regulatory authority of any State, are true. I (We) agree that the Transfer Agent, the fund in which I (we) am (are) investing, Founders Asset Management LLC, The Dreyfus Corporation or any subsidiary or their officers, directors, trustees or employees will not be liable for any loss, expense or cost for acting upon any instructions or inquiries believed genuine. In connection with any applicable telephone privileges, the fund will require its Transfer Agent to employ reasonable procedures, such as requiring a form of personal identification, to confirm that instructions relayed by telephone are genuine and, if it does not follow such procedures, the fund or the Transfer Agent may be liable for any losses due to unauthorized or fraudulent instructions. Neither the fund nor its Transfer Agent will be liable for following telephone instructions reasonably believed to be genuine.

I (we) acknowledge that mutual fund shares are not FDIC-insured. They are not bank deposits, bank obligations or bank-guaranteed. They pose investment risks, including the possible loss of principal.

If you have completed Section 5B, please have this application signature guaranteed. Signature guarantees in proper form are generally accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program, the Securities Transfer Agents Medallion Program ("STAMP") and the Stock Exchanges Medallion Programs. Notarization is not acceptable.

Taxpayer Identification Number Certification: Under the penalties of perjury, I (we) certify [1] that the Social Security Number(s) or Taxpayer Identification Number(s) shown in Section 1 of this form is (are) my (our) correct Taxpayer Identification Number(s), [2] that I (we) am (are) not subject to backup withholding either because I (we) have not been notified that I (we) am (are) subject to backup withholding as a result of a failure to report all dividends, or the Internal Revenue Service has notified me (us) that I (we) am (are) no longer subject to backup withholding, and [3] I (we) am (are) a U.S. person (including a U.S. resident alien). NOTE: Strike out item [2] if you have been notified that you are subject to backup withholding by the IRS and you have not received a notice from the IRS advising you that backup withholding has been terminated.

The Internal Revenue Service does not require your consent to any provision of this document other than the certifications required to avoid backup withholding.
